Spain –

3505	30c	<i>Tricholoma equestre</i>	Tricholomataceae
3506	78c	<i>Amanita muscaria</i>	Amanitaceae

United States – August 28, 2007

4198c	41c	Crustose lichen on rock and yellow-bellied marmot
4198d	41c	Crustose lichen on rock and American pika
4198f	41c	Crustose lichen on rock and Magdalena alpine butterfly
4198g	41c	Crustose lichen on rock and white-tailed ptarmigan
4198h	41c	Crustose lichen on rock and Rocky Mountain parnassian butterfly
4198i	41c	Crustose lichen on rock and Melissa Arctic butterfly
4198j	41c	Crustose lichen on rock and brown-capped rosy finch

These seven stamps are seven of ten self-adhesive stamps scattered in a miniature sheet. In addition to these stamps there are several rocks shown in the selvege of this sheet covered with crustose lichens (foreground of the overall picture [see below: black rectangles = approx. stamps; white outlines = areas which include crustose lichens.])
